

Xair

A high-output 18 inch horn-loaded subwoofer designed for large scale low-frequency performance

FREQUENCY RESPONSE¹

33 Hz – Preset dependent

MAXIMUM OUTPUT²

139 dB cont, 145 dB peak

SENSITIVITY³

104 dB 1W/1m

POWER HANDLING

3200 W AES

Nightclubs & Bars

Festivals & Events

The Xair is a double 18 inch horn-loaded low-frequency enclosure, designed to deliver high-output. Cutting-edge design and very high-efficiency has made the Xair an instant dancefloor favourite.

With 3200 W AES power handling and a double 18 inch driver configuration, the Xair delivers high-SPL with minimal power compression. Improved transient and phase response support consistent low-frequency performance across a range of applications.

The tough 'TourCoat' polyurea finish and birch plywood construction support durability in demanding environments. Truck pack friendly dimensions and universal location receptors enable straightforward handling and deployment across touring and installation scenarios.

KEY FEATURES

High-output, dual 18 inch, horn-loaded subwoofer

Special 'Air' edition of Stasys XV2

3200 watts AES power handling

Negligible power compression

Fast transient response and extremely low group delay

Tough 'TourCoat' polyurea finish

Truck pack friendly dimensions

Universal location receptors

Available as standard in black with red bracing

White finishes are available upon request, along with custom RAL and KROME options for the bracing

SPECIFICATIONS

Frequency response¹	33 Hz – Preset dependent
Maximum Output²	139 dB cont, 145 dB peak
Nominal Dispersion	Array dependent
Sensitivity³	104 dB 1W/1m
Driver Configuration	2 x 18" LF
Power Handling	3200 W AES
Nominal Impedance	4 Ω

Suggested Minimum Amplifier	Bias Q5
Weight	116 kg (255.7 lbs)
Connections	2 x 4-pin locking connector
Enclosure	18 mm birch plywood
Finish	Textured "TourCoat" polyurea
Mounting	M20 top hat included

¹-10 dB IEC60268-5 ²Calculated ³Measured in half space
